Living with a fireplace and a view of greenery

Living and dining flow into one another across a good 45 m². The oiled Italian oak parquet, the wall of Italian natural stone and the fireplace with its new glazing give the room warmth. On winter evenings the fire burns; in summer the sliding door to the terrace stands open.

The dining table for eight stands by the window, with the kitchen a few steps away. Your guests sit with you, not in the next room.

Top: living room with fireplace and natural stone wall. Below: access to the terrace, dining area, fireplace.

A kitchen island with a seat for everyone

In 2021 the dividing wall to the kitchen was removed and a multifunctional island installed: worktop of Brazilian pink granite, base of Italian natural stone with a dimmable LED strip, four seats and sockets on both sides. This is where you have breakfast, work and watch the cooking.

The fridge (2019) and dishwasher (2020) are by V-ZUG, the extractor hood dates from 2020. The kitchen tap was replaced in 2026 and fitted with a BWT drinking-water filter.

TOUR · TERRACE AND GARDEN

Your summer living room with a view of Mount Pilatus

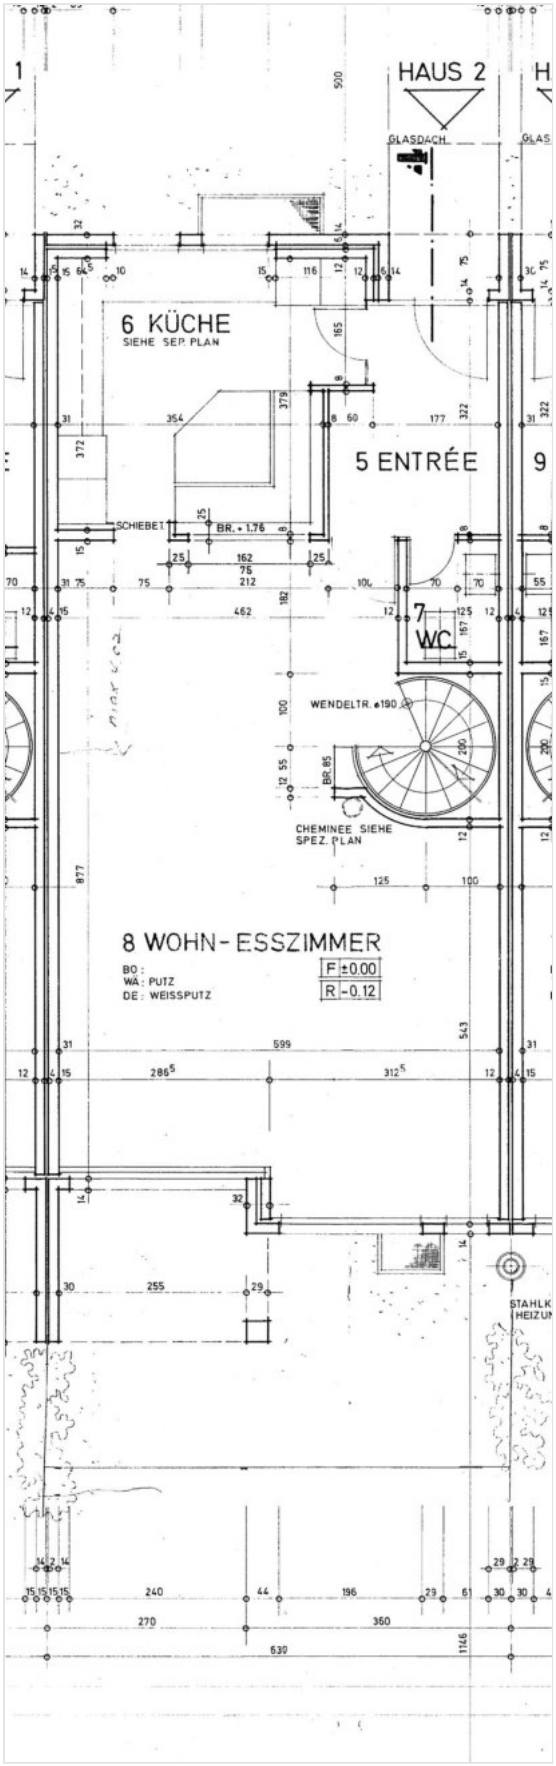

The 26 m² terrace has two areas: a covered dining space right by the living room and a lounge in the sun. In front lies the garden with 47 m² of lawn, framed by hedges and shrubs. From the sun lounger you look across the lake to Mount Pilatus.

The grounds were comprehensively renewed in 2011. The garden is large enough for children and a barbecue, and small enough not to rule your weekends.

Waking up with a view of the lake

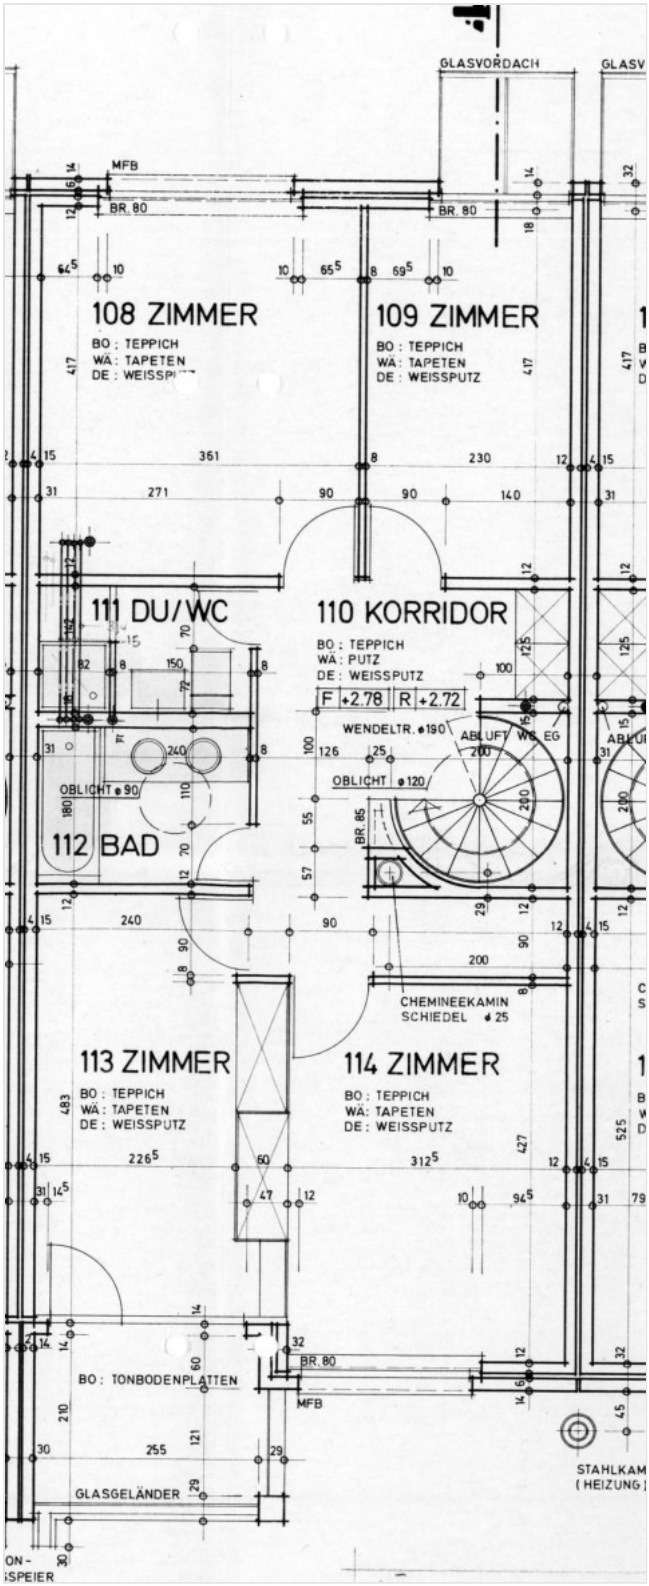

Four rooms are on the upper floor, two of them on the lake side with views of water and mountains. One room has direct access to the balcony: your place for the first coffee or the last glass of wine.

Two walk-in wardrobes, designed and fitted by a joiner in 2021, create order without wardrobe walls. The bathroom with double washbasin and the separate shower room with WC ease a family's morning routine. The taps and the lighting in the bathroom were renewed in 2026.
